If I am willing to pay for the service, I should get what I want to pay for! If does not make sense that the FCC is going to take that away from me just because it can be FREE?! If I wanted to listen to the NAB free services, I would. But I do not! I love my XM radio and I do not appreciate the NAB starting trouble and the FCC thinking about taking my weather and traffic away that I am freely paying for. Thanks for NOT taking the NAB's side.
